In 2004, the U.S. Department of Homeland Security (DHS) awarded Telecommunications for the Deaf and Hard of Hearing, Inc. (TDI) nearly \$1.5 million for a two-year project, called the Community Emergency Preparedness Information Network (CEPIN) project, for the purposes of developing a model community education course for emergency responders, managers, planners and deaf and hard of hearing consumers.

As a result the "Emergency Responders and the Deaf and Hard of Hearing Community: Taking the First Steps to Disaster Preparedness" course was developed.

Please follow this link to learn how this new course impacts you.
